✓ **Congratulations! You passed!**

Next Item

✓ **1.** Given the following HTML code:

```
1   ...
2   <div style="background-color: blue; background: url('mypicture.jpg');"> ...
       </div>
```

1 / 1
points

What will you see inside the div element?

○ Some image on top of a blue background

○ Blue background, but no image

○ Blue background will be covering the image

◉ Just the image

Correct
Since we specified 'background' and not 'background-image', we wiped the
'background-color' property value, so the blue background will not appear.
